

Growth Chart Scenario 1: Abigail

Below are Abigail's weights over the course of her MTN-016 study participation. Plot these points on your growth chart.

Age	Weight (kg)
Birth	3.6
1 month	4.2
3 months	5.4
6 months	6.2
7 months	6.6
12 months	7.6

Check the back of this sheet to see if your growth chart is correct.

What do you think about Abigail's growth trajectory? Are there any visits when you would have been concerned about Abigail's growth? If so, which one(s)? What would you have done to intervene?

Growth Chart Scenario 2: Joseph

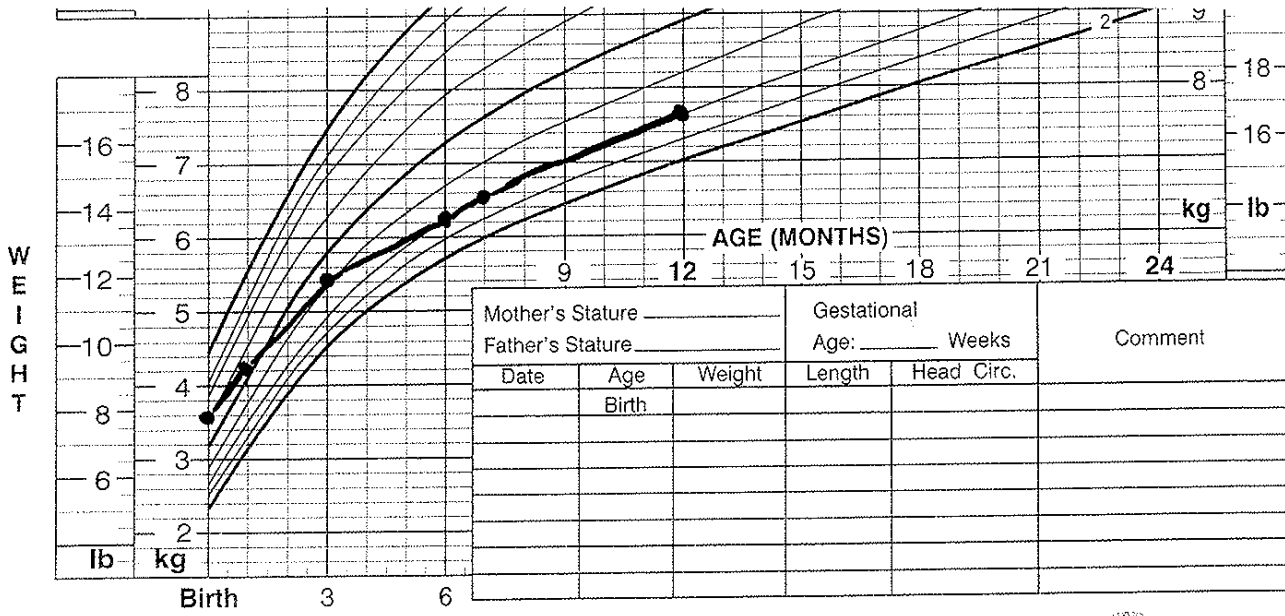

Below are Joseph's weights over the course of his MTN-016 participation. Plot these points on your growth chart.

Age	Weight (kg)
Birth	2.6
1 week	2.7
1 month	3.6
6 months	6.6
12 months	8

Check the back of this sheet to see if your growth chart is correct.

What do you think about Joseph's growth trajectory? Are there any visits when you would have been concerned about Joseph's growth? What would do if, at Joseph's month 1 visit, his mother expresses concern that he is much smaller than all of her friends' babies of the same age?
