

Intro:

The following survey will ask you questions about recent events in your life and relationships, your behavior, and your experiences with PrEP or the dapivirine ring. Some of the questions may seem very personal, but please remember that all of your answers will be kept confidential. With the computer, no one else can see or hear the questions and no one can see your answers, so please be as truthful as you can.

You can skip any question that makes you feel uncomfortable or stop taking the survey at any time. None of your answers will affect your ability to stay in the study.

During this interview, when we say “tablets” we are talking about the tablets you are taking in this study, and when we say “ring” we are talking about the ring you are using in this study.

Some questions will ask you about your life or behavior during a specific time period (for example, “in the past 30 days”). Please pay close attention to the time period and only tell us about your behavior during that time.

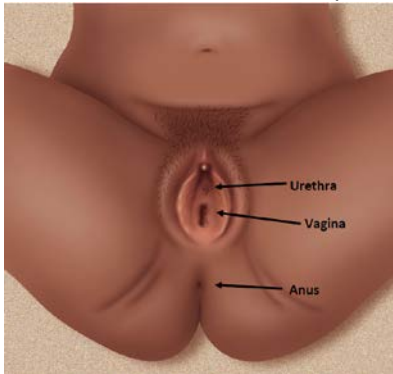

The survey will take about 20-30 minutes to complete. Only use the "Previous" (White) and "Next" (Green) buttons at the bottom of each page to move through the survey.

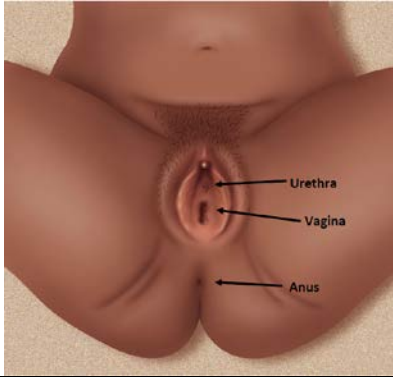

If you have questions or need assistance, please ask a member of the study staff. If you have questions or need assistance, please ask a member of the study staff.

#		Response options	Skip pattern or notes
Adherence (At Visit 23 or Early PUEV/Discontinuation Visit only):			
We are now going to ask you some questions about your experience using the ring.			B1
1.	Since you joined the REACH Study, have you ever lost a ring?	Yes No Participant skipped question	B10
2.	Since you joined the REACH Study, has anyone ever taken or stolen a ring from you?	Yes No Participant skipped question	B11
3.	Since you joined the REACH Study, did you ever give away, share, trade, or sell a ring?	Yes No Participant skipped question	B12

33.	People in my community think: Taking PrEP can make you infertile	Strongly disagree Disagree Agree	O12

		Strongly agree Don't Know Participant skipped question	
--	--	--	--

Risk Perception

34.	How worried are you that you may get infected with HIV in the next year?	Very worried Moderately worried A little worried Not at all worried	P1
-----	--	--	----

Product preference (At Visit 23 and Early PUEV/Discontinuation Visit only)

35.	<p>Would you prefer to use the ring or the tablets for HIV prevention?</p> 	Ring Tablets Either product equally Neither product Participant skipped question	Q2 If Tablets, skip to question 37 (item Q4). If "Either product equally" or "Neither product", Q3 and Q4 should not be asked and skip to item X4 (Visit 23) or R5 (PUEV).
36.	If the ring was not available, would you be willing to use the tablets?	Yes No Participant skipped question	Q3 Skip to question 46 (row 149, item X4) for Visit 23. Skip to question 38 (item R5) for Early PUEV.
37.	If the tablets were not available, would you be willing to use the ring?	Yes No Participant skipped question	Q4

Product acceptability (Visits 20 and Early PUEV/Discontinuation Visit only) (some Visit 23)

We would like to hear more about your experience with the ring and tablets. Please think back to when you used them earlier in the study.			R5
38.	What is your opinion of the size of the ring?	Too big Too small The size is fine Participant skipped question	S2
39.	How much did you mind wearing the ring for an entire month?	Not at all A little	S5

		A lot Participant skipped question	
40.	How much did you mind wearing the ring during menses?	Not at all A little A lot Did not have menses while using the ring Participant skipped question	T3a
41.	Have you felt sick or experienced any side effects from using the ring?	Yes No Participant skipped question	T6 If No, skip to question 43 (item U2)
42.	How much did the side effects bother you?	Not at all A little A lot Participant skipped question	T7
43.	How much do you mind wearing the ring during sex?	Not at all A little A lot Participant skipped question	U2
44.	Do you think the ring can be used secretly, without a sexual partner knowing? (<i>Visit 20 and Early PUEV</i>)	Yes No Don't know Participant skipped question	V1
45.	Do you think the ring can be used without your family member(s) knowing? (<i>Visit 20 and Early PUEV</i>)	Yes No Don't know Participant skipped question	W1
46.	How much protection do you feel that the ring can provide against HIV? (<i>Visits 20, 23 and Early PUEV</i>)	No protection A little protection Some protection A lot of protection Participant skipped question	X4
The next questions ask about your opinion of the tablets.			Y1
47.	What is your opinion of the size of the tablets?	Too big Too small The size is fine Participant skipped question	Y4
48.	What is your opinion of the sound the tablets make when you are carrying them?	Dislike very much Dislike Neither like nor dislike Like Like very much Participant skipped question	Y5
49.	How much did you mind taking the tablets every day?	Not at all A little A lot Participant skipped question	Y8
50.	How easy or difficult was it to swallow the tablets?	Very easy Easy	Z3a

		Not easy or difficult Difficult Very difficult Never swallowed the tablets Participant skipped question	
51.	Have you felt sick or experienced any side effects from taking the tablets?	Yes No Participant skipped question	Z5 If No, skip to question 53 (item AB1).
52.	How much did the side effects bother you?	Not at all A little A lot Participant skipped question	Z6
53.	Do you think the tablets could be used secretly, without a sexual partner knowing? (<i>Visit 20 and Early PUEV</i>)	Yes No Don't know Participant skipped question	AB1
54.	Do you think the tablets could be used without your family member(s) knowing? (<i>Visit 20 and Early PUEV</i>)	Yes No Don't know Participant skipped question	AC1
55.	How much protection do you feel that the tablets can provide against HIV? (<i>Visits 20, 23 and Early PUEV</i>)	No protection A little protection Some protection A lot of protection Participant skipped question	AD4

Clinic Experiences (At Visit 23 and Early PUEV/Discontinuation Visit only)			
Now we would like to know how you felt about your experience with the study clinic and study staff. Please indicate whether you found the following parts of the study acceptable or unacceptable.			AE1
56.	Waiting time at the clinic during your visits	Acceptable Unacceptable Participant skipped question	AE2
57.	Having to use a contraceptive method throughout the study	Acceptable Unacceptable Participant skipped question	AE3
58.	Having your blood drawn	Acceptable Unacceptable Participant skipped question	AE4
59.	Having an HIV test done every month	Acceptable Unacceptable Participant skipped question	AE5
60.	Having pelvic exams	Acceptable Unacceptable Participant skipped question	AE6
61.	Getting counseling from the study staff about HIV risk and tablet or ring use	Acceptable Unacceptable Participant skipped question	AE7
62.	The clinic schedule/operating hours	Acceptable Unacceptable Participant skipped question	AE8

63.	How well the study staff protected your privacy	Acceptable Unacceptable Participant skipped question	AE9
64.	How the study staff treated you during your visits	Acceptable Unacceptable Participant skipped question	AE10
65.	How honest the staff were about the study ring and tablets	Acceptable Unacceptable Participant skipped question	AE11

Follow-up counseling:			
66.	We have asked you a number of questions today. Some of them may have caused you to feel worried or sad. Would you like to talk to someone about how you are feeling? If you answer yes, a counselor will be notified that you would like to talk to her or him.	Yes No Participant skipped question	AF1

If participant replies Yes to this question, an alert will be shown when the administrator closes the ACASI s that a study counselor can offer additional counseling to the participant.
